

Olean City School District

Buildings & Grounds Committee Meeting

OHS Board Room

Tuesday, April 11, 2023

Meeting started at 4:30 pm

In attendance: Andrew Caya, Jim Padlo, Dan Farnham, Jenny Bilotta, Dr. Morris, Dr. Lee

1. Building Condition Survey – First look – has been submitted to state ed. Extensive list that will be prioritized over the next several months and plans will be made to address needs.
2. Capitol Project Update – All areas are progressing. HIGHLIGHT – Auditorium is on track to be useable for graduation.
3. Security/Safety – Drills – required drills are happening and we are learning from them – what we are doing right and what areas we need to put more attention to. Looking to conduct some reunification drills in the near future
4. Policy review – plan to review 5631/5632 at next meeting concerning hazardous materials AND pesticides.
5. Other – discussion about turf vs. natural. We are seeing some lawsuits questioning safety/athletic injuries (increases?). Pros & cons were discussed, but the numbers don't justify a change from the current plan. Installation factors must be considered, monitored and followed through on to ensure safest conditions for our athletes. Drainage of and around the fields are KEY and need to be completed correctly.

Meeting ended at 5:30 pm
