1. Mr. Jerry Lefeber, an alderman for the city of Olean, started the meeting by requesting that the board of education consider turning over all or a portion of the land currently held at the old Boardmanville Elementary School site. He indicated that the area has always been popular with families of that section of the city and that, currently, Ward One is the only ward in the city without a neighborhood park. He indicated that if the city could get a park there, the city would put in playground equipment for children. The committee agreed to consider the issue and would have it on next month's agenda for further discussion.

Jerry exited the meeting

2. Mr. Mark Voorhees of Campus Construction presented the committee with current plans for Phase 5 of the Capital Project. He presented the committee with the various stages of the various projects at each school building. Among his handouts was also a page with the timetable for each project of each building. The committee basically agreed to pursue the parking lot developments at Washington West and the High School now and then put all the remaining projects out to bid later in the year.
