

Olean City School District
Buildings and Grounds Committee Meeting
410 West Sullivan Street
Tuesday, May 21, 2013
12:00 p.m.

Present:	Paul Knieser	Colleen Taggerty
	Kathy Elser	Vicki Zaleski-Irizarry

The meeting began at noon in the Board of Education room at Olean High School.
There was not a quorum present.

The following topics were briefly discussed:

- 1) The eBay project at the High School is proceeding nicely with the students already generating sales and a profit in the hundreds of dollars. Storage issues and plans for next year are being handled efficiently and promptly.
- 2) The Capital Outlay Project list is being developed and the list and timeline will be available for discussion and analysis at next month's meeting.
- 3) The use and possible sale of IJN Elementary School will be discussed in more detail at next month's committee meeting. For the moment it is simply acknowledged that the current sale is dead and new sales or use proposals will be developed. The possibility of using eBay for the sale is being investigated.
- 4) Progress is going on with the Washington West parking situation. The request for a curb cut and the plan for the new parking area are both progressing smoothly.

Respectfully submitted by Paul Knieser.

The meeting adjourned at 12:14.

Next Meeting Date: June 18, 2013
