SUPPLIES:

- Scientific calculator
- Pencils (NO PENS)
- 1 inch binder
- Paper
- Earbuds/headphones

Welcome to 7th grade accelerated math! Throughout the year, we will be working hard to master the 7th & 8th grade common core standards. Students will need to work diligently throughout the year to master these standards. Students are expected to complete their math work daily. I encourage students who have questions or concerns to communicate with me (either through the chat feature in Teams or ask me during math class). **I will be available to chat with students and respond to emails from parent/guardians from 7:55-2:55 every school day. Students and parents/guardians can communicate with me outside those hours, and I will respond during the next school day.** I am looking forward to a great school year! ☺

GRADING:

Grades will be calculated using a total points system. All assignments including homework, quizzes, projects, and tests will be assigned a point value. To calculate a student's grade, divide the number of points a student earned by the total number of points possible. I **try** to update my gradebook in Parent/Student Portal at least once a day. Please use this feature to check and monitor your child's grade and average. During a typical marking period, students should expect:

- Homework assignments: 5 nights per week, about 10-20 points each
- Quizzes : 0-2 per quarter, About 50 points each
- Tests: 2-3 per quarter, About 100-200 points each
- Projects and group challenges: when possible, points vary

HOMEWORK:

- Homework assignments are posted weekly on my webpage, sent to parent via email, and sent in a message through ParentSquare.
 - Students will fill out their agendas in class for the week on Monday (or the first day of week).
- Homework is due the day after it is assigned. (As stated in the letter you received over the summer, 100% homework completion is required for this class. I will be contacting parents/guardians when students consistently fail to turn in homework assignments.)
- Revisions can be made on all homework assignments.
 - Revisions for each chapter are due the day after the chapter test (unless otherwise stated).
 - Students can earn up to full credit back on assignments that are revised.
- Homework is considered late if it is not turned in at the beginning of class.
 - *As stated in the letter, 100% homework completion is required for this class.
- If a student is absent, the student is responsible for completing the work that they missed.
 - Please check the "posts" & "files" section in the Teams math class and the absent bin in the classroom to find out what was missed.

Sign below to indicate that you have gone over this sheet with your child.

Please detach, fill out legibly, and return this portion to Mrs. Marconi by Friday, September 9th.

Student's Name: _____ Parent/Guardian's Name: _____

Parent/Guardian's Email Address: _____

**I send out weekly emails letting you know what is going on in math class. Please write down an email address that you check on a regular basis so that you get the updates.*
