

# BrainPOP

" I have done Freckle and Reading, is there anything else I could be learning about?" If this is ringing in your ear either as a parent or a student- BrainPOP is the answer!

Mrs. Gabler's class already has individual accounts and have used it regularly (if your username and passwords are not in you passbook let me and I will look it up for you). Miss Reese's class should have gone in and set themselves up an account- Mrs. Gabler sent out the invitation code last week (if you didn't do it and need the code resent let me know and I will resend it to you).

Once you are inside of BrainPOP- there are several assignments that you can do for extra credit. Assignments include Social Studies, Science, Math, and Technology. There are tons of great things to explore and learn at BrainPOP. Here is the link:
