

Social Studies Assignments

- ❑ On the dates listed below a mission will be assigned with accompanying activities. Each mission (unit) will last approximately 10 school days. The site deals with the history of the United States and I encourage each parent to read the at-home learning page for detailed information about the program.
- ❑ The site is similar to a choose your own adventure story. Each student needs to register for the site so that their progress is saved but no personal documentation is taken. I suggest using simple, easy to remember username and password- also have your child log it in his/her passbook.
- ❑ The website is: <https://www.mission-us.org>
